

GROUP CONTRACT

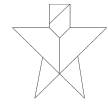

Group number: Y3

The group has agreed on the following rules concerning the group's conduct and cooperation:

When, how often, for how long and where will we meet?	Whole group: At least bi-weekly, with only team representatives attending if full participation isn't necessary. Sub teams: Schedule meetings freely, coordinating times within the team. All of the group members should be informed about the agreed upon meetings on Discord.
How will we communicate in the group?	Medium: Discord (primary), physically. Transparent, Honest, Realistic.
How will we participate in the project work (conduct)?	Active collaboration, task-sharing, and regular team communication.
How will we take decisions in the group?	The matters are settled with a clear majority, with over 50% of voters agreeing to support them. Only the people whose work is relevant to the decision participate. Changes to the group contract require a vote from all reviewers and an 80% majority to pass.
How and when do we cancel if we are	Let everyone know in writing (Discord) and do it as soon as you find out you will not be able to attend (at least the day before, before 22:00).

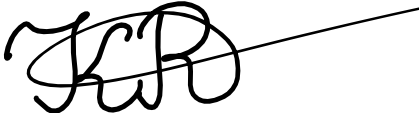

unable to attend a meeting?	Under specific circumstances, a vote is conducted to decide whether a warning will be handed out. All present members of the scheduled meeting participate. In the case of being late, anybody present can call a majority vote about whether a warning should be handed out for the offence. The subject of the vote does not get to participate.
Which problems may arise?	Random holidays. Code breaks because of random commits. The group member stops attending meetings. The team stops communicating with the rest of the group.
How can we solve our problems?	No random holidays are allowed - they need to be approved with a majority vote within the subteam. Each person is responsible for the changes they commit and should fully understand their work.
What if one or more members do not respect agreements?	Initially, we provide written notice of the violation. If it occurs a third time without improvement, we escalate the issue to the supervisors.
How can we ensure that group members keep agreements?	By signing a group contract and respecting it.
When will we assess the cooperation in the group for the first time?	After the first major assignment.
How often should we review the group contract?	When it is needed.

When will we review the group contract (date)?	Probably right after each major assignment.
When do warnings expire?	They don't, a sub-team vote can be called to mitigate one warning at a time.
How quickly are responses relevant to the project expected?	All members should reply within 12h during weekdays and within 24h during the weekends excluding night hours (22.00 - 8.00).
